Catalogue 2021 / Revision 2101

January 2021. All previous catalogues are herewith obsolete.
The information can't be either completely or partly reproduced,
modified or recorded in a filing system and transmitted in any shape
or with any electronic, mechanical or recording means, without the
written permission of Videotec S.p.A. Specifications are subject to
change without notice. Weights and dimensions are indicative.

UNDER

In over 35 years in the video surveillance sector, Videotec has designed and developed a great number of products to monitor any type of external environment. Today, our company is one of the most respected suppliers in the industry.

HISTORY

Thanks to considerable investments in R&D, Videotec continues to offer innovation, with a constant eye on the future and new technologies. Videotec holds 19 international patents, which have truly benefitted the world of security.

INNOVATION

As a unique firm built to shape and enhance a select market, we strive relentlessly to boost our clients' growth and satisfaction with incessant efforts to cultivate our team's expertise, professionalism, and creativity. Thanks to our focus on clients' prosperity and well-being, all of us are better off.

MISSION

Videotec runs its international operations from its production and logistics headquarters in Italy. It is supported by three branches, four offices abroad and numerous other selected partners. Thanks to the well-structured distribution network and expert staff, Videotec can offer excellent pre- and post-sale service right across the world.

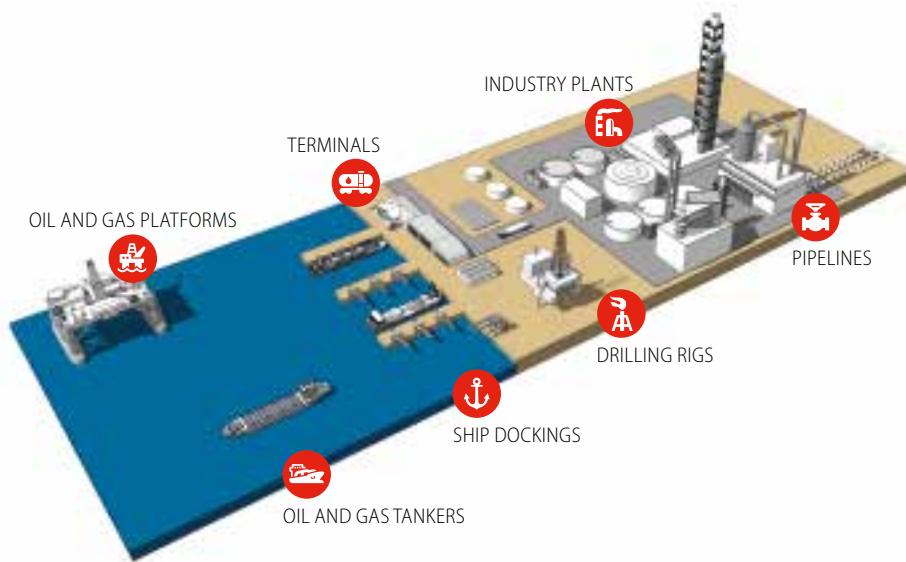

GLOBAL COMPANY

Videotec products are a perfect blend of high performance, easy installation, durability and great design, and their ISO 9001:2015 certification means that quality is guaranteed. Videotec is unique in its continuous effort to achieve the latest technological breakthroughs in order to satisfy clients and grow the business.

PRODUCT LINES

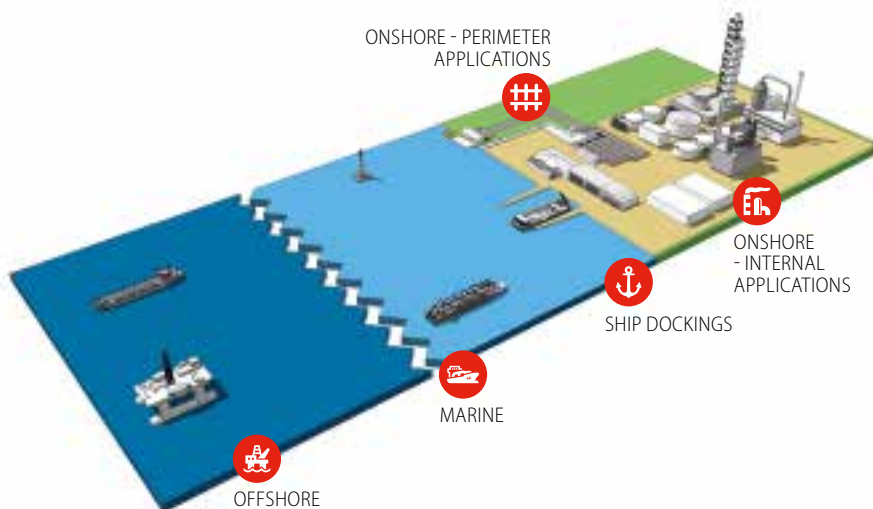

Videotec's specialized and certified products fulfil the requirements of the most complex video surveillance applications in all types of industrial sectors: energy, maritime and naval, transport, and critical infrastructures.

MARKETS

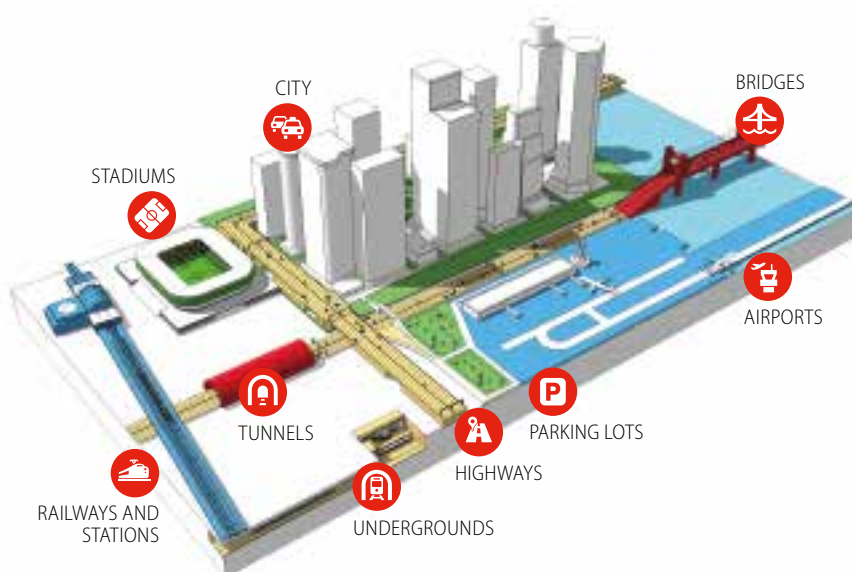

Oil and Gas

The wide range of specialized and certified ex-proof products provides the highest degree of protection and the immediate situational awareness in areas with risk of explosion. The operator can monitor critical areas and constantly receive detailed information, quickly detect abnormal and dangerous situations and take immediate decisions, reducing the chance of accidents.

Marine Onshore Offshore

Videotec has the global expertise to address the complex issues of maritime and industrial applications with a wide range of specialized products for professional video surveillance. Designed to withstand the most corrosive atmosphere, these AISI316L PTZ cameras and fixed cameras can be installed on board of all types of vessels such as oil tankers, container ships, LNG carriers, etc.

Critical infrastructure and Transportation

Videotec is able to satisfy even the most complex needs related to critical infrastructures, road and motorway traffic monitoring, to public urban security and dynamic and complex outdoor environments. Clear and detailed day and night images, even on long distances, non-stop operation with zero maintaining, preset accuracy, immediate remote feedback, simplified management with remote updates, easy plug and play installation, open architecture for IP management.

VIDEOTEC ANALYTICS

Video analytics

The video analysis technology, integrated into VIDEOTEC cameras, offers an end-to-end solution for preventative detection of intrusions in outdoor monitoring applications of critical infrastructures, industrial sites and perimeters.

VIDEOTEC ANALYTICS is the result of more than 10 years of research and design, carried out by a team of R&D professionals, cooperating together with prestigious international universities and research centres.

The advantages of VIDEOTEC ANALYTICS

- Maximum preventative anti-intrusion efficiency: every part of the system is designed and automated to allow immediate and preventative actions against any possible threat.
- A reduction in human error and therefore costs.
- Reduced storage space needed: only necessary footage is recorded.
- Optimal external operation in the most critical and complex atmospheric conditions.
- VIDEOTEC ANALYTICS enables the geolocation function:
GeoMove&Track. This function allows a form of cooperation between two VIDEOTEC cameras via an intelligent language to create advanced actions also on the more common video surveillance systems. This function offers the benefit of having a complete, turn-key positioning and tracking solution, guaranteed by VIDEOTEC.
- Unbeatable detection performance even at long distances, thanks to the analysis of detail-rich high-definition images.
- Reduced time and effort needed to monitor, detect and search the recordings for anomalous events. The resulting security system is highly efficient, reliable and convenient.

How does VIDEOTEC ANALYTICS work

Every time there is an alarm, the auto-tracking automatically activates and event metadata is sent to the VMS via the ONVIF protocol.

Simultaneously, the security operators are then alerted and recording starts.

The camera keeps the moving target at the centre of the frame and zooms in on the target to make recognition easier.

The metadata sent to the VMS system can be used to frame the target with a bounding box for clear identification of the subject or it can be used to activate alarms or begin recording.

Bounding boxes are visible on VMS systems that have ONVIF Media 2 Profile (contact VIDEOTEC for list of compatible VMS systems).

Calibration

The operator can calibrate the scene's point of view, so it is possible to render the targets in 3D.

Target classification

After carrying out a simple calibration procedure, targets can be put into three categories: generic objects, person, vehicle.

Targets will then trigger an alarm based on their size and so false alarms as a result of irrelevant objects appearing in the frame are drastically reduced.

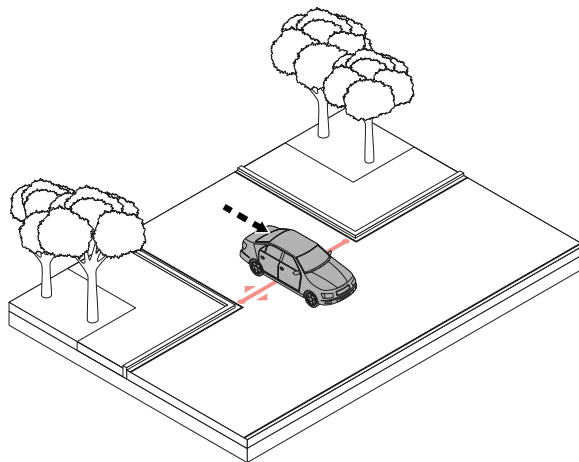

All system calibration and configuration are carried out via a very intuitive web interface.

Rules

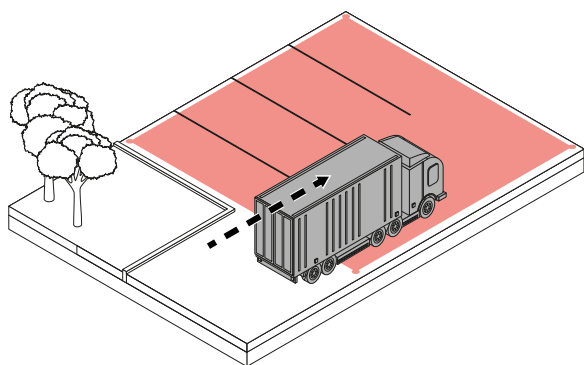

Depending on the rules set by the user, an alarm is displayed and auto-tracking activated if an object enters, exits, or appears or stops more than allowed in an area. Any violation of these rules will activate auto-tracking and other scheduled actions.

Up to ten rules per preset can be quickly configured.

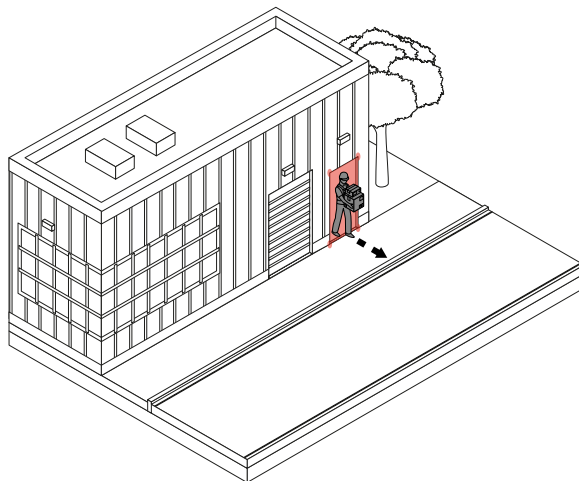

Line crossing

The target triggers an alarm if it crosses the line in one direction or multiple directions.

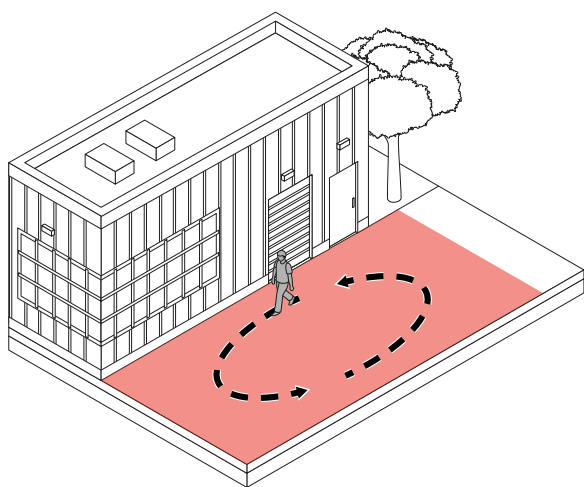

Entering/leaving area

The target triggers an alarm if it enters or leaves a specific area.

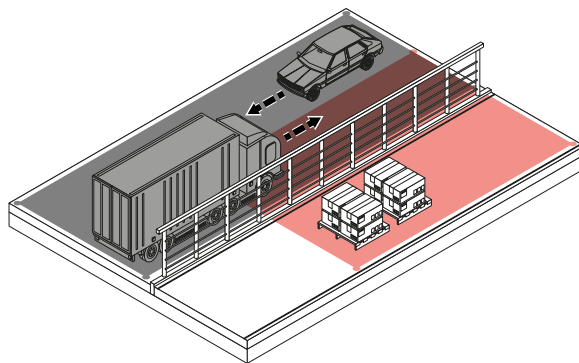

Appearing in area

The target triggers an alarm if it appears in a specific area.

Loitering

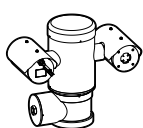

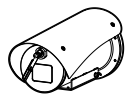

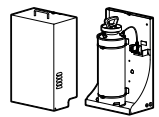

The target triggers an alarm if it stays in a specific area longer than a defined time.

Detection mask

Disables detection activity in a part of the image.

PTZ ULISSE EVO cameras combine high technology, design and competitiveness and guarantee safe video surveillance in town centres, critical infrastructures, transport and marine applications.

ULISSE EVO cameras are unbeatable for their exceptionally bright images even in difficult lighting conditions and provide video recordings with clear details and vivid colours by day and by night. ULISSE EVO is available with an integrated super low-light camera with 30x motorised zoom, with Delux video encoding technology. Alternatively, the model with Sony FCB-EV7520 camera offers an electronic image stabiliser, advanced HLC technology and dynamic masking of privacy zones. Models available with integrated video analysis.

ULISSE EVO DUAL is a PTZ network positioning system equipped with advanced technology that provides two independent videos simultaneously from a high-sensitivity visual camera and a thermal camera. These are perfectly aligned with the movements of the PTZ.

The ULISSE EVO THERMAL version integrates a thermal camera with radiometric functions.

The extremely robust design and the light weight simplify installation operations. This PTZ offers unbeatable resistance to wind in continuous operation up to 230km/h, impact (IK10) and maintains maximum efficiency with temperatures from -40°C to +65°C.

ULISSE EVO - ACCESSORIES

			ULISSE EVO	ULISSE EVO THERMAL	ULISSE EVO DUAL
COMB		Communication box in polycarbonate Designed to work exclusively with Videotec products and accessories 1 SFP port, MSA compliant, Fast Ethernet (100BASE-FX), for fiber optic connection (splice tray included in the product) 3 RJ45 ports, Fast Ethernet (10BASE-T/100BASE-T)	√	√	√
FM1010		EMC filter for Marine certification The filter must be connected to the power line of the equipment The filter is not explosion-proof certified Implement adequate protection if used in potentially explosive classified environments (e.g. Atex) Electrical data: from 0 up to 250V DC/AC 50/60 Hz, 6A	√	√	√
OHEP90INJ		PoE (90w) Power Injector with one channel For installations indoors (OHEP90INJ) For installations outdoors (OHEP90INJO)	√	√	√
SURGEPR		Lightning surge protection device For railway applications (in compliance with EN50121-4)	√	√	√
UEI		Illuminator for ULISSE EVO Colours: RAL9002, RAL9005 Wavelengths: 850nm, 940nm, white light	√	—	—
WASPT		Washer pump and 5 or 23 liter tank Polyethylene tank with stainless steel cage Delivery head: 5m (16ft), 11m (36ft) or 30m (98ft) Versions with alarm for the lack of liquid in the tank Also for third-party products Operating temperature: from -10°C (14°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac	√	—	√
WASNX		Washer pump with solenoid valve for stainless steel products Enclosure made of stainless steel AISI 316L Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for Videotec products or with third-party products Operating temperature from -20°C (-4°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac	√	—	√

ULISSE EVO - BRACKETS			ULISSE EVO	ULISSE EVO THERMAL	ULISSE EVO DUAL
UEBP0		Parapet bracket with internal cable channel for ULISSE EVO Standard colours: RAL9002 (UEBP0AA), RAL9005 (UEBP0FA)	√	√	√
UEBP		Parapet bracket with quick connectors for ULISSE EVO RJ45 (Ethernet and PoE)+4 poles with screw terminal or 7 poles to weld (power supply and I/O) Standard colours: RAL9002 (UEBP4AA), RAL9005 (UEBP4FA)	√	√	√
UEBW		Wall mount bracket for ULISSE EVO Standard colours: RAL9002 (UEBWAA), RAL9005 (UEBWFA)	√	√	√
UEAP		Pole mount adaptor Made of AISI 316L electropolished stainless steel For pole diameters: from 60mm (2.36in) up to 200mm (7.9in) Dimensions: 121x85mm (4.7x3.3in)	√	√	√
UEAC		Corner mount adaptor Made of AISI 316L electropolished stainless steel Dimensions: 120x220mm (4.7x8.7in)	√	√	√
UEAW		Counter-plate Made of AISI 316L electropolished stainless steel Dimensions: 200x200mm (7.9x7.9in)	√	√	√

ULISSE PTZ CAMERAS AND UNITS

ULISSE

The robust PTZ ULISSE units guarantee maximum surveillance coverage in every outdoor environment, even the most difficult, without maintenance interventions. The PTZ ULISSE combine high speed with utmost tracking accuracy, both in manual and patrol operation.

ULISSE2 is a Full-IP PTZ unit that boasts outstanding functional performance and an ability to manage all third-party ONVIF-S IP cameras. This is done by directly accessing the installed camera via a browser, with a single IP address, allowing control over configuration and diagnostics. ULISSE2 is also compatible with 4K cameras.

ULISSE MAXI/ULISSE MAXI NETCAM is a robust and efficient PTZ camera unit designed to ensure dynamic, non-stop surveillance of large outdoor areas whilst withstanding harsh weather conditions. This model can house and manage the largest motorised lenses on the market, taking a total weight of up to almost 8 kilos.

There are several models available that cater to all requirements, depending on the size of the camera and lenses, or whether a thermal camera is necessary. To guarantee detailed images are captured even at night, there are units available with built-in LED illuminators, with infrared or white light. A wiper option is also always available.

ULISSE PTZ CAMERAS AND
UNITS

ULISSE RADICAL

ULISSE RADICAL is a ready-to-use, Full HD, network PTZ camera system that unites exceptional lens and camera combinations, and is pre-configured and pre-assembled in the factory to ensure that it works perfectly, with a simplified installation process.

The lens and camera are pre-configured during the production phase so the user needs only to connect it to a power supply and network. Then, just a couple of clicks are required to complete the simple final setup, adapting it to the user's requirements.

With the THERMAL model, the PTZs can detect people and objects across a large visual range and in the most difficult environmental conditions, such as varying levels of light (including total darkness), or where there is thick smoke, rain and dust.

The ULISSE RADICAL PTZ range guarantees the very best levels of constant surveillance in security applications such as airports and military installations, around perimeters and borders, in coastal and maritime zones, on motorways, in tunnels and for environmental monitoring activities and fire detection.

ULISSE COMPACT

ONVIF® | Q S T

ULISSE COMPACT DELUX is a Full HD network camera featuring the new imaging and encoding technology for outdoor surveillance that generates incredibly vivid and clear colour video images day or night.

This exceptional PTZ is the ideal choice for every monitoring need outside infrastructures and residential centres, of road and motorway traffic, and complex situations in general.

The DELUX imaging and encoder technology, thanks to the superior light sensitivity of the sensor, can make bright recordings with sharp, clearly defined colours in the very low light conditions typically found at night, working at as low as 0.006 lux (0.0006 lux in black and white).

Amongst the available options are integrated LED illuminators, a wiper to clean the glass and a large range of tanks with washer pumps, with various capacities and delivery heads.

		ULISSE COMPACT DELUX

STAINLESS STEEL PTZ CAMERAS

NXPTZ SERIES2

IP66/IP67
IP68/IP69

TYPE
4X

ONVIF® | Q S T

VIDEOTEC
analytics

The NXPTZ SERIES2 is resistant to rust and corrosion and does not require maintenance thanks to the absolute precision of the construction process and the solid AISI 316L stainless steel construction with micro-shot and electropolished surfaces.

Compared to the previous generation, the SERIES2 range cameras have the possibility of easily connecting the PTZ using fibre optic thanks to the slot of the SFP module installed directly at the bottom of the unit and on installation of the specific accessory NXPTZSFP which provides a cable input on the product dedicated to fibre optic.

Models available with integrated video analysis.

There are numerous accessories available including a washing system, and wall, parapet, corner and pole supports that mean installation is extremely flexible.

As well as this, the compact design means it can be installed in the tightest spaces, while the unit's reduced weight makes assembly simple.

The NXPTZ SERIES2 video camera with VIDEOTEC ANALYTICS integrates robust algorithms for accurate detection with PTZ and precise, fluid auto-tracking even in the harshest climate conditions, ensuring that the operator has full situation awareness at all times.

EXPLOSION-PROOF PTZ
CAMERAS

MAXIMUS MPX SERIES2

ONVIF® | Q S T

VIDEOTEC
analytics

The IP PTZ from the new MAXIMUS SERIES2 line offer the highest working performance and unbeatable levels of competitiveness for security systems in hazardous Oil&Gas, marine and industrial environments. There are two models in this explosion-proof range: MPX SERIES2 with Day/Night Full HD super low-light DELUX camera with 30x optical zoom and MPXR SERIES2 with a thermal camera and advanced radiometry functions, with a choice of various optical types.

The MAXIMUS SERIES2 range enables PTZ connection via fibre optic thanks to the SFP module mounted inside the unit (not supplied by Videotec).

Models available with integrated video analysis.

Entirely manufactured in AISI316L stainless steel, the SERIES2 cameras can be used for assembly in highly corrosive environments. The high degree IP66/IP67/IP68/IP69, NEMA Type 4X and Type 6P guarantees complete protection against water and dust entry.

All the versions of the PTZ MAXIMUS SERIES2 are explosion-proof certified with an ambient temperature up to +80°C with international certification for use in Zone 1 and 2, Group IIC for gas, Zone 21 and 22, Group IIIC for dust (ATEX/IECEx and UL/CSA). The Lloyd's Register Marine Type Approval System Test Specification Number 1 certification allows use in Marine applications.

MAXIMUS MPX SERIES2 - ACCESSORIES

MAXIMUS MPX SERIES2

MAXIMUS MPXR SERIES2

MAXIMUS MPXT SERIES2

MPX2CABL-MPX2CABLARM		Multipolar cables for explosion-proof Pan & Tilt Pre-cabled for Ethernet, video, I/O and telemetry connections Equipped with barrier cable gland Resistant to oil, flames and ultra-violet rays Available in an armoured and unarmoured version Designed for potentially explosive zones Available in 2 lengths, standard or customised length	√	√	√
WASEX		Washer pump with ex-proof solenoid valve Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for MAXIMUS series or with third-party products Power supply: 24Vac or 24Vdc Consumption: 5W	√	—	√
MAXIMUS MBX		Explosion-proof communication box in stainless steel Certifications for use in Zones 1 and 2, IIC Group (Gas) and in Zones 21 and 22, IIIC Group (Dust) Embedded Ethernet switch with four channels 2 bypass for analog video signals with BNC connectors 2 bypass for I / O signals with multi-pin connectors Input voltages available: 230Vac, 120Vac, 24Vac MAXIMUS MBX exclusively supports Videotec products from the Maximus range with 24Vac and Wasex with 24Vac	√	√	√
MAXIMUS MBA		Explosion-proof communication box in aluminium Certifications for use in Zones 1 and 2, IIC T5 or T6 Group (Gas) and in Zones 21 and 22, IIIC T100°C or T85°C Group (Dust) Embedded Ethernet switch with four channels 2 bypass for analog video signals with BNC connectors 2 bypass for I / O signals with multi-pin connectors Input voltages available: 230Vac, 120Vac, 24Vac MAXIMUS MBA exclusively supports Videotec products from the Maximus range with 24Vac and Wasex with 24Vac	√	√	√
FMT010		EMC filter for Marine certification The filter must be connected to the power line of the equipment The filter is not explosion-proof certified Implement adequate protection if used in potentially explosive classified environments (e.g. ATEX) Electrical data: from 0 up to 250V DC/AC 50/60 Hz, 6A	√	√	√

MAXIMUS MPX SERIES2 - BRACKETS

MAXIMUS MPX SERIES2

MAXIMUS MPXR SERIES2

MPXWBA		Wall mount bracket Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Length: 400mm (15.7in) Can be coupled with modular components (MPXCW, MPXCOL)	✓	✓
MPXCOL		Pole mount adaptor Made of AISI 316L electropolished stainless steel For pole diameters: from 110mm (4.3in) up to 150mm (5.9in) Load rating: 50kg (110lb) Dimensions: 198x182mm (7.8x7.2in)	✓	✓
MPXCW		Corner mount adaptor Made of AISI 316L electropolished stainless steel Load rating: 50kg (110lb) Dimensions: 335x186mm (13.2x7.3in) Suitable for: MPXWBA, MHXWBS	✓	✓
MPXWBTA		Parapet or ceiling mounting bracket Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Dimensions: Ø 238mm (9.4in)	✓	✓

EX-PROOF CAMERAS AND HOUSINGS

MAXIMUS MMX

The explosion-proof Full HD camera MAXIMUS MMX is perfect for efficient video surveillance and control of processes in hazardous environments where the atmosphere is potentially explosive due to the presence of inflammable gases or dust, typical of the Oil&Gas, marine or industrial and foodstuff sectors.

The Full HD, 1080p camera, with 3x or 10x motorised zoom lens, offers multiple video streams (H.264/AVC, MJPEG, JPEG, MPEG4) and provides exceptional image quality, picking out every detail in a scene, even in the harshest environmental conditions.

An absolute advantage offered by this camera is its extremely easy and safe installation. The camera can be supplied with multipolar cabling. The camera can also be powered in PoE+, thereby allowing further simplification of installation operations. The camera is supplied with supports for wall, ceiling and railing installation and with a sunshield.

The MAXIMUS MMX product is Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

EX-PROOF CAMERAS AND HOUSINGS

MAXIMUS MVX

The MAXIMUS MVX range of cameras offers effective video surveillance and process control in critical environments where the air is potentially explosive due to the presence of flammable gases or dust. This is something commonly seen across the Oil & Gas, marine and industrial sectors. The MVX range was designed to meet the most stringent international standards, achieving the required levels of certification for use in Zones 1 and 2 (Gas), Group IIC T5 and 6, and Zones 21 and 22 (Dust), Group IIIC T100°C and T85°C.

The extensive temperature range of certification, from -60°C to 65°C with a sophisticated cold start system, offers the possibility of working in extreme environments.

The MAXIMUS MVX series products are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

EX-PROOF CAMERAS AND HOUSINGS

MAXIMUS MHX

IP66

IP67

TYPE
4X

The MAXIMUS MHX range of explosion-proof housings have been designed to meet the strictest standards required for installation in hazardous environments where gases and flammable dusts may be present (Zone 1 and 2, Group IIC for gas and Zone 21 and 22, for Group IIIC for dust). Made entirely of electro-polished AISI 316L stainless steel, these housings allow the camera inside to work perfectly in harsh environments, such as refineries, pipelines, tankers, off-shore rigs and industrial processes.

Equipped with heating, the MHX housing has a corresponding installation and working temperature range of -40 °C to +60 °C. The MHX model with a wiper is equipped with an in-built telemetry receiver that allows data to be received, via the serial RS-485 interface, so that the wiper and washer pump can be operated remotely, and external illuminators may be lit. Wiring the device is made easier thanks to removable connectors on the connection circuit. The MHXT model features a window made of germanium, a material that provides perfectly clear vision for thermal cameras.

EX-PROOF CAMERAS AND HOUSINGS

EXH

IP66

The robust, explosion-proof EXH range of housings have been designed for use in areas where there is a risk of explosion and they are certified Zone 1 and 2, Group IIC for gas and Zone 21 and 22, for Group IIIC for dust.

These housings are made entirely of strong, anti-corrosion aluminium. All its components are oven-fire painted and provide ultimate resistance to ultraviolet rays, saline mist and polluting agents that are present in the surrounding atmosphere.

The EXH-G model features a window made of germanium, a material that provides perfectly clear vision for thermal cameras. Heating is provided as standard, while the sunshield is optional. Also available are a wide range of armed or unarmed cable glands for various diameter cables.

STAINLESS STEEL HOUSINGS AND CAMERAS

NVX

NVX and NTX cameras have advanced anti-corrosion properties and are distinguished for their compact design and light weight, which facilitates their installation and maintenance, also thanks to the quick connectors. They are suitable for applications in marine and industrial environments, as well as use in the rail and transport sectors and in motorway tunnels.

These cameras have exceptional resistance to corrosion, an ample temperature range and degree of protection IP66/IP67/IP68/IP69.

NVX is available with an integrated super low-light camera with 30x motorised zoom, with DELUX video encoding technology. Alternatively, the model with SONY FCB-EV7520 camera offers an electronic image stabiliser, advanced HLC technology and dynamic masking of privacy zones. Models available with integrated video analysis.

The NVX camera is available with integrated wiper or with polycarbonate window for applications in the food industry.

NTX is a thermal camera with radiometric functions that allow detection of the temperature and setting of an alarm based on a temperature threshold.

STAINLESS STEEL HOUSINGS AND CAMERAS

NXM36
NXL
NXW

IP66/IP67
IP68/IP69

The NX series housing was designed to guarantee perfect and constant functionality of the cameras in more extreme and corrosive environmental conditions, such as marine, industrial environments and motorways. These housings offer reliability and strength thanks to the maximum precision used in the manufacturing processes and the quality of the stainless steel AISI 316L, completely resistant to rust and corrosion.

The line includes different models to meet every application need: liquid cooled housings and with glass resistant to very high temperatures or for thermal video, housings suitable for immersion in water, with air barriers for cleaning or cooling of the front glass and housings for Hi-PoE cameras with power supply via Ethernet cable.

These housings can be used in motorway tunnels and in areas with high atmospheric pollution, in submarine monitoring systems, in control of industrial processes, in blast furnaces and foundries.

The NXM36 product is Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

Heater		Heater Thermostatically controlled heating element PTC 20W or 40W (Ton <= 15°C(59°F); Toff >= 22°C(72°F) Available versions: 12Vdc/24Vac or 120Vac/230Vac	✓	–	✓	✓	✓	–	–
STAINLESS STEEL HOUSINGS AND CAMERAS - BRACKETS									
NXWBL		Wall bracket for NXL housing Made of AISI 316L electropolished stainless steel Load rating: 45kg (99lb) Length: 596mm (23.5in) Can be coupled with modular components: NXCOL, NXCW	–	–	–	✓	✓	–	–
NXWBS1		Wall mount bracket Made of AISI 316L electropolished stainless steel Load rating: 45kg (99lb) Dimensions: 371x186mm (14.6x7.3in) Suitable for: NXCOL, NXCW	✓	✓	✓	✓	✓	✓	✓
NXCOL		Pole mount adaptor Made of AISI 316L electropolished stainless steel For pole diameters: from 110mm (4.3in) up to 150mm (5.9in) Load rating: 50kg (110lb) Dimensions: 180x196mm (7.0x7.7in)	✓	✓	✓	✓	✓	✓	✓
NXCW		Corner mount adaptor Made of AISI 316L electropolished stainless steel Load rating: 50kg (110lb) Dimensions: 180x291mm (7x11.5in)	✓	✓	✓	✓	✓	✓	✓
NXWTU		Wall adaptor module Made of AISI 316L electropolished stainless steel Load rating: 20kg (44lb) Dimensions: 168x234mm (6.6x9.2in) Suitable for: NXWBS1, WBOVA2, WBJA, WBMA	✓	✓	✓	✓	✓	✓	✓
MHXWBS		Wall mount bracket Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Length: 425mm (16.7in) Suitable for: MPXCW, MPXCOL	✓	✓	✓	–	–	✓	✓
MHXWFWCA		Parapet mounting bracket Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Dimensions: Ø 101.6mm (4in) Suitable for: NXFWBT	✓	✓	✓	–	–	✓	✓

GENERAL PURPOSE CAMERA HOUSINGS

**HOV
PUNTO
VERSO
HEG
HEK, HEB, HGV**

The wide range of housings, made from aluminium or innovative plastic materials, meets every requirement for use in external environments. The numerous supports and adapters, with or without cable protection, provide a solution for any type of mounting. There are also a large variety of accessories available: heating, camera power supply, tamper switch, fans and filters, wipers and several glass cleaning kits. The POLAR model protects the camera inside against temperatures down to -55 °C.

The housings that have intelligent IPM management technology, developed by Videotec for Hi-PoE cameras, use the Ethernet cable's power as the only power supply for all the managed devices. The Hi-PoE system can independently measure all available options, such as heating, fans and illuminators, maintaining a balance of power and, thus, making sure that it is adequately distributed to all connected devices. The result is a network which is more reliable and flexible, simplified installation operations and also reduced costs.

STAINLESS STEEL P&T MOTORS

NXPTH

IP66

IP67

NXPTH Pan & Tilt, together with the stainless steel housing, was built to withstand the most severe and corrosive environmental conditions such as offshore, marine environments and industrial applications.

Each detail has been carefully analysed, resulting a reliable product suitable for highly corrosive environments. The accurate mechanical construction and reliable motors utilized reduce the need of maintenance even in situations of heavy mechanical stress.

The NXPTH allows a maximum horizontal/vertical rotation of 340° and is equipped with potentiometers which allow use of the preset function.

NXPTH

NXPTH		Stainless steel P&T motor Made of AISI 316L electropolished stainless steel IP66/IP67 Horizontal fixed speed 5°/s, vertical fixed speed 3°/s Max. load 40kg (88lb) balanced Preset function Versions 24Vac and 230Vac, 50/60Hz Compatible with: NXM, NXM36, NXM36 Hi-PoE, NTM, NXL, NTL
-------	---	---

STAINLESS STEEL P&T MOTORS - BRACKETS

NXWBPTH1		Wall bracket for NXPTH Bracket for NXPTH Suitable for: NXCOL, NXCW, NXFWBT Made of AISI 316L electropolished stainless steel Load rating: 70kg (154lb) Length: 596mm (23.5in)
NXFWBT		Extension bracket for parapet mounting Made of AISI 316L electropolished stainless steel Load rating: 70kg (154lb) Height: 124mm (4.9in) Suitable for MHXFWCA ball joint Suitable to MVX housings only if coupled with MHXFWCA joint Suitable for: NXWBPTH1
NXCW		Corner mount adaptor Made of AISI 316L electropolished stainless steel Load rating: 50kg (110lb) Dimensions: 180x291mm (7x11.5in)
NXCOL		Pole mount adaptor Made of AISI 316L electropolished stainless steel For pole diameters: from 110mm (4.3in) up to 150mm (5.9in) Load rating: 50kg (110lb) Dimensions: 180x196mm (7.0x7.7in)

TELEMETRY

DTRX3
DTMRX2
DCRE485

A wide range of telemetry receivers have been designed for outdoor Pan & Tilt remote control, which includes the most basic to the most complete models, and enable Pan & Tilt function management and motorised lenses.

The DTRX3 is a digital receiver, controlled by a microprocessor with 17 functions, for remote control of a Pan & Tilt motor, motor-driven zoom lens, wiper, washer and 4 auxiliary contacts.

DCRE485 is a serial data distributor used to increase the lines of DTRX3 and DTMRX2 receivers. The appliance gives serial data back on 8 outputs at the same time, allowing star configurations.

DTRX3, DTMRX2, DCRE485

DTRX3		<p>Telemetry receiver for P&T, 17 functions</p> <p>11 standard functions for the control of P & T motors and zoom lenses, 6 functions for auxiliary services (2 x dry contacts, 1 x 12Vdc, 1 x 24Vac, wiper and washer)</p> <p>Maintenance of configuration even in case of power loss</p> <p>Selectable communication: RS-232 and RS-485</p> <p>Selection of the P&T motor power supply (24Vac or 230Vac) and camera (12Vdc or 24Vac)</p> <p>Compatible with protocol PELCO D</p>
DTMRX2		<p>Telemetry receiver for P&T, 12 functions</p> <p>11 standard functions for the control of P&T motors and zoom lenses, 1 function for the control of one auxiliary service (dry contact)</p> <p>Selectable communication: RS-232 and RS-485</p> <p>Aux can be used for wiper operation</p> <p>Compatible with protocol PELCO D</p>
DCRE485		<p>Serial data distributor for P&T</p> <p>1 input, 8 serial outputs in RS-485</p> <p>Serial data back on eight outputs at the same time</p> <p>max. connection distance 1200m (3937ft)</p>

MULTIPOLAR CABLES

CMS-CMA
CPS-CET-CIO

The armoured and unarmoured multipolar cables are prepared for Ethernet, video, alarms and telemetry connections.

These cables have been designed for use in hostile environments and potentially explosive atmospheres. They are resistant to oil, flames and ultra-violet rays and hence recommended for use with our ex-proof and stainless steel cameras.

They are available in black and blue and are sold by the metre.

CMS-CMA, CPS-CET-CIO

CMS-CMA		Armoured and unarmoured multipolar cables Prepared for Ethernet, video, I/O and telemetry connections Resistant to oil, flames and ultra-violet rays Available in black or blue Designed for potentially explosive zones Armoured black cable (CMAN1200): 1 Ethernet cable, 3 power supply conductors, 1 coaxial video cable, 7 alarm conductors, relay and telemetry Armoured black cable (CMAN0400): 1 Ethernet cable, 3 power supply conductors Unarmoured black cable ((CMSN2200): 2 Ethernet cables, 3 power supply conductors, 2 coaxial video cables, 15 alarm conductors, relay and telemetry Unarmoured blue cable (CMSN0400): 1 Ethernet cable, 3 power supply conductors
CPS-CET-CIO		Power and control cables Cable with power supply with 3 conductors Ethernet cable STP Cat. 5e Shielded signals cable with 7 or 8 conductors All cables are UL certified

WAS WASHING SYSTEMS

WAS, WASPT WASNX WASEX

Videotec cleaning kits adapt to any Videotec PTZ camera or housing that is equipped with a wiper, and are also compatible with third-party products.

The kit comprises a tank for the washing fluid (various sizes, from 5 to 23 L) and an integrated pump with head up to 30 m of range. With the use of antifreeze, the minimum working temperature is as low as -25 °C.

The stainless steel models were designed for special applications such as those onshore/offshore, industrial or in environments where external agents are particularly corrosive. The explosion-proof certified version allows use in environments at risk of explosion.

The WASEX series products and the product WASPT0V23L11M00 in the WASPT series are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

WAS-WASPT, WASNX, WASEX

WAS-WASPT		Washer pump and 5 or 23 liter tank Polyethylene tank with stainless steel cage Delivery head: 5m (16ft), 11m (36ft) or 30m (98ft) Versions with alarm for the lack of liquid in the tank Also for third-party products Operating temperature: from -10°C (14°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac IP protection degree: IP66 (only products with 5m (16ft) or 11m (36ft) delivery head) Marine Certification: Lloyd's Register Marine Type Approval (only valid for the pump with a 23l tank and 11m delivery head in the WASPT series)
WASNX		Washer pump with solenoid valve for stainless steel products Enclosure made of stainless steel AISI 316L Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for Videotec products or with third-party products Operating temperature from -20°C (-4°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac IP protection degree: IP65 (solenoid valve only, enclosure not rated)
WASEX		Washer pump with ex-proof solenoid valve Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for MAXIMUS series or with third-party products Power supply in 24Vac/dc, 5W max Explosion-proof certified: refer to the table Marine Certification: Lloyd's Register Marine Type Approval

MAXIMUS MBX		Explosion-proof communication box in stainless steel Certifications for use in Zones 1 and 2 IIC Group (Gas) and in Zones 21 and 22 IIIC Group (Dust) Embedded Ethernet switch with four channels 2 bypass for analog video signals with BNC connectors 2 bypass for I / O signals with multi-pin connectors Input voltages available: 230Vac, 120Vac, 24Vac MAXIMUS MBX exclusively supports Videotec products from the Maximus range with 24Vac and Wasex with 24Vac	—	—	√
MAXIMUS MBA		Explosion-proof communication box in aluminium Certifications for use in Zones 1 and 2, IIC T5 or T6 Group (Gas) and in Zones 21 and 22, IIIC T100°C or T85°C Group (Dust) Embedded Ethernet switch with four channels 2 bypass for analog video signals with BNC connectors 2 bypass for I / O signals with multi-pin connectors Input voltages available: 230Vac, 120Vac, 24Vac MAXIMUS MBA exclusively supports Videotec products from the Maximus range with 24Vac and Wasex with 24Vac	—	—	√
WASCAB		Cabinet for WAS/WASPT (versions with 5m and 11m head pump) AISI 316L stainless steel construction Dimensions: 403x568x354mm (15.8x22.3x14in) Suitable for: NXCOL, NXCW	√	—	—

LED ILLUMINATORS

GEKO IRH **GEKO IRN**

IP66

IP67

TYPE
4X

IK10

GEKO is a range of latest-generation LED illuminators designed and produced by Videotec that provide excellent lighting for standard resolution and megapixel cameras. They are extremely reliable and robust.

GEKO illuminators light up an entire scene evenly, eliminating hot spots and areas of under-exposure for unrivalled night-time images and secure area surveillance.

The high efficiency heat sink body guarantees maximum duration of the LED and protection against overheating, while the window, in special technopolymer, offers high infrared transmission.

The line includes models with a wave length of 850nm, 940nm and white light and scattering angle of 10°, 30° or 60°.

GEKO IRH, GEKO IRN

GEKO IRH		LED illuminator High efficiency ultimate SMD LED technology High efficiency heat sink body to ensure maximum LEDs durability Strong aluminium structure Beam patterns: 10°, 30°, 60° Wavelengths: 850nm, 940nm, white light Supply voltage: from 12Vdc up to 24Vdc or 24Vac Consumption: 6 W or 12W Adjustable built-in photocell VOLT free relay contact for external activation It can be mounted under a housing using the OSUPPIR bracket Supplied with a wall-mount bracket IP66/IP67
GEKO IRN		LED illuminator High efficiency ultimate SMD LED technology High efficiency heat sink body to ensure maximum LEDs durability Strong aluminium structure Vandal-proof protection (IK10) Supply voltage: 12Vdc, 24Vdc, 24Vac or from 100Vac up to 240Vac Beam patterns: 10°, 30°, 60° Wavelengths: 850nm 940nm, white light Consumption: 30W Adjustable light intensity Adjustable built-in photocell VOLT-free relay input for external activation VOLT free relay output for Day/Night camera Supplied with a wall-mount bracket IP66/IP67

GEKO IRH - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR ONE ILLUMINATOR

HORIZONTAL AND VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE			
	850NM, LOW POWER	850NM, HIGH POWER	940NM, HIGH POWER	WHITE LIGHT, HIGH POWER
10°	100m (328ft)	140m (460ft)	100m (328ft)	–
30°	60m (197ft)	84m (276ft)	60m (197ft)	60m (197ft) ¹
60°	40m (131ft)	56m (184ft)	40m (131ft)	40m (131ft) ¹

¹ Achievable distances with camera in Day mode (colour image)

The distances and the performance depend on the camera/lens used and on the environmental conditions.

GEKO IRN - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR ONE ILLUMINATOR

HORIZONTAL AND VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE		
	850NM	940NM	WHITE LIGHT
10°	240m (787ft)	140m (460ft)	–
30°	130m (427ft)	80m (262ft)	120m (393ft) ¹
60°	80m (262ft)	60m (197ft)	90m (295ft) ¹

¹ Achievable distances with camera in Day mode (colour image)

The distances and the performance depend on the camera/lens used and on the environmental conditions.

GEKO IRN - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR TWO ILLUMINATORS

HORIZONTAL/VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE	
	850NM	940NM
10°	275m (902ft)	200m (656ft)
30°	165m (541ft)	120m (393ft)
60°	110m (361ft)	80m (262ft)

GEKO IRH - CONFIGURATION OPTIONS				
	BEAM PATTERNS	POWER	WAVELENGTH	
IRH	10 Narrow	H High power	8 850nm	A
	30 Medium	L Low power	9 940nm	
	60 Wide		W White light	

The version in white light (W) is only available in high-power (H) with 30° or 60° beam patterns.

The versions in 940nm are available in high power (H).

GEKO IRN - CONFIGURATION OPTIONS						
	BEAM PATTERNS	POWER SUPPLY	WAVELENGTH		VERSION	
IRN	10 Narrow	A 90-240Vac	8 850nm	A	S Single illuminator	00
	30 Medium	B 12-24Vdc, 24Vac	9 940nm

CONTROL KEYBOARDS

DCZ
DCJ

Our keyboards control a wide range of switching devices and most of the speed domes and PTZs available on the market. In addition, the product range includes video transmitters/receivers via twisted pair cabling for video signals over long distances.

The DCZ keyboard comes with jog shuttle, joystick 38 backlit keys, alarm buzzer, and allows the management of CCTV applications from a PC, via USB connection.

Furthermore, the DCJ allows you to control up to 999 telemetry receivers, the preset and patrol functions together with the DTRX3.

DCZ, DCJ

DCZ		<p>Universal keyboard for managing CCTV applications from PC</p> <p>USB keyboard for managing CCTV applications, with joystick and jog shuttle</p> <p>Functions determined by the controlled application</p> <p>The user can easily personalize and print several pre-cut sheets supplied for this purpose</p> <p>The keyboard can be turned round so that both right- and left-handed users can use all the functions with ease</p> <p>HID Game Controller emulation for the use with the most important VMS (Avigilon Control Center, Ganz-VsolP, Exacq Vision, Milestone XProtect®, Genetec Omnicast 4.2, Mirasys-DVMS, Seetec ProBox, Sony-Real Shot Manager, Luxriot DVR)*</p> <p>*Functionality may be limited depending on the VMS used.</p>
DCJ		<p>Video and telemetry control keyboard</p> <p>Three axis proportional joystick</p> <p>Direct control or through Videotec matrix series SM of third parties products</p> <p>RS-485 serial communication with video matrix and multiplexer</p> <p>2 RS-485 independent telemetry lines</p> <p>RS-232 serial communication connection with PC for firmware update</p> <p>Up to 9999 video channels, 999 telemetry receivers on each telemetry line and 99 monitors</p>

VIDEO MATRIX AND DISTRIBUTORS

SM164B VD

The system video matrix offers a solution to collect and manage images that are able to switch video inputs onto independent outputs with synchronised sequencing among the various monitors.

The SM164B matrix is a microprocessor remote-controlled video matrix which allows the video switching of 16 cameras on 4 outputs. In case of alarm, the alarmed video input can be displayed on the video outputs. The alarm contacts are independent and configured as Normally Open (NO) or Normally Closed (NC).

The video distributor is used when it is necessary to distribute the same video signals to multiple locations.

SM164B, VD

SM164B		System video matrix PAL/NTSC 16 video inputs 4 independent video outputs with text generator Telemetry over the coax on the 16 video inputs and on auxiliary serial output (RS-485) Controllable by PC (RS-232) 16 alarm inputs, one output contact, trigger VCR and alarm reset 4 RS-485 serial inputs for max. 4 remote keyboards Privacy video masking function
VD		Video distributors Versions with 1, 4, 8 inputs and 8, 16 outputs For colour or B/W video signals The input signal is amplified and distributed to the available outputs By means of VD816PR1 and VD48P1 versions, it is possible to select how many outputs can be associated to a video input
